

Where we have gone

We have come a long way since the adoption of the **Master Plan on ASEAN Connectivity (MPAC) 2025** in September 2016

We have built the foundation for **stronger and more sustainable infrastructure** in ASEAN. In 2018,

Lead Implementing Body on Sustainable Infrastructure established

Initial Pipeline of ASEAN Infrastructure Projects launched

ASEAN Sustainable Urbanisation Strategy (ASUS) launched

Road to

ASEAN Connectivity 2025

Where we are

Connect the region to the digital world of opportunities

See the Study on Micro, Small and Medium Enterprises' (MSME) Participation in Digital Economy

Strengthen regional connectivity through supply chain ecosystem

See the project on ASEAN Database on Trade Routes and Framework for Enhancing Supply Chain

Enhance human capital and bring opportunities closer to the people

See our initiatives on Technical and Vocational Education and Training (TVET) and higher education

We continue to chart the course towards a **seamlessly and comprehensively connected ASEAN.**

Where we will go

Initial Rolling Priority Pipeline of ASEAN Infrastructure Projects

announced in 2019 will support ASEAN Member States to advance infrastructure and mobilise resources.

We continue to build partnerships to bring meaningful impact.

Mid-Term Review of MPAC 2025 will help us strengthen our efforts to achieve our vision of ASEAN Connectivity 2025.

MPAC 2025 is unlocking more opportunities to improve the way people live, work and travel across the region.
