

Hi, this is Dao from Lao PDR  
and this is my story...

# BECOMING DRIVERS OF AGRICULTURAL GROWTH

Like many farmers in **ASEAN**, I have been rearing livestock for generations, using the same method to get the same outputs.

As population grows and urbanisation accelerates, what can smallholder farmers like me do to meet the rising demand for livestock products?

**THE ANSWER IS...**

# **IMPROVING FARMERS' CAPACITY AND SKILLS!**

Through **Technical and Vocational Education and Training (TVET)** provided by local organisation, farmers could gain:

**TECHNICAL  
KNOWLEDGE**

**FARM  
MANAGEMENT**

**BUSINESS  
MANAGEMENT  
SKILLS**

**Farmers can improve the productivity  
of their farms and better manage  
climate variability.**

**Farmers can also build capacities  
to yield better results  
to capitalise on export market.**

# The Master Plan on ASEAN Connectivity (MPAC) 2025 unlocks more opportunities!

**By encouraging more people to partake in vocational education and training programmes across ASEAN Member States.**
